

Update on microcontroller firmware versions

Elham Azadbakht - TAMU (Nov 21, 2019)

- ▶ Microcontroller needs to have a working wait function. Otherwise we get zeros in hybrid readout mode.
- ▶ Will put all the pieces of the microcontroller on the git repo as soon as we get them from Terry.
- ▶ Some troubles in programming microcontroller at TAMU. Working on it.
- ▶ Confluence Page (under construction)

Microcontroller Version	Wait Function
2.05	Works
2.06	Broken
2.07	Broken
2.08	Not Yet Tested
